Introduction:

Thank you for downloading this ebook. This is a free ebook, feel free to share it with others this technique.

As promised i will teach you now how to make \$500+ daily with no cost at all. If you are able to write and receive emails then you too could make money online.

I decided to give away this method for free for one reason – I know how some of you are desperate to actually make some money on the Internet and blogging doesn't bring you much income, and I know that you're not willing to spend money on advertising which in most cases can ruin your budget fast.

With my method you will not have to spend a single cent. This ebook provides step-by-step instructions. That way you will be able to apply and implement it very easily.

The quick description of my system:

You join lead based affiliate program where you receive commission for every member who sign up for free using your unique affiliate link. (I will show you where to join)

You place your simple ads on a free, high traffic classified ads website. (I will give you the best site to advertise)

You set up new email address with vacation auto responder. (I will tell you which one is the best to do it)

People interested in your ad contact you via email address.

They receive automatically an information with your affiliate link to sign-up for free at some sites.

Sounds easy? OK, let me go further in details. Please read carefully the next pages!

Method Overview:

This money making method is about how to earn money from men who are seeking girls. There are free classified sites with category “girls seeking guys”.

You will post obvious ads as a girl there. All ads replies will be forwarded to your email. It will be a new one with vacation auto responder on (I don't have to explain why – do I?) which will reply to any email sent to it with the text you set up.

That text will be a short note where you ask those men to sign up to dating websites to

see your profile, photos, cell phone, chat with you etc.

These dating websites will pay you for every free sign up you refer. I will show you which dating site affiliate programs to join on the next page.

The day i signed up! (Red arrow points to 6/5/2007)

These days I started really working on that = avg. \$500+/day
!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!

These are earnings stats for the affiliate program I personally use. I decided to use only this one, because they are actually big trusted network of about 25+ dating sites where you can refer your users. The advantage of using this one is also that you will be paid by the same company even if you are promoting lot of dating sites/links.

Here is the link:

[Sign Up link](#)

It should take you to the [main affiliate site](#).

To signup you have to click the "Affiliate Signup" link from the menu (highlighted in red at the screen shot below).

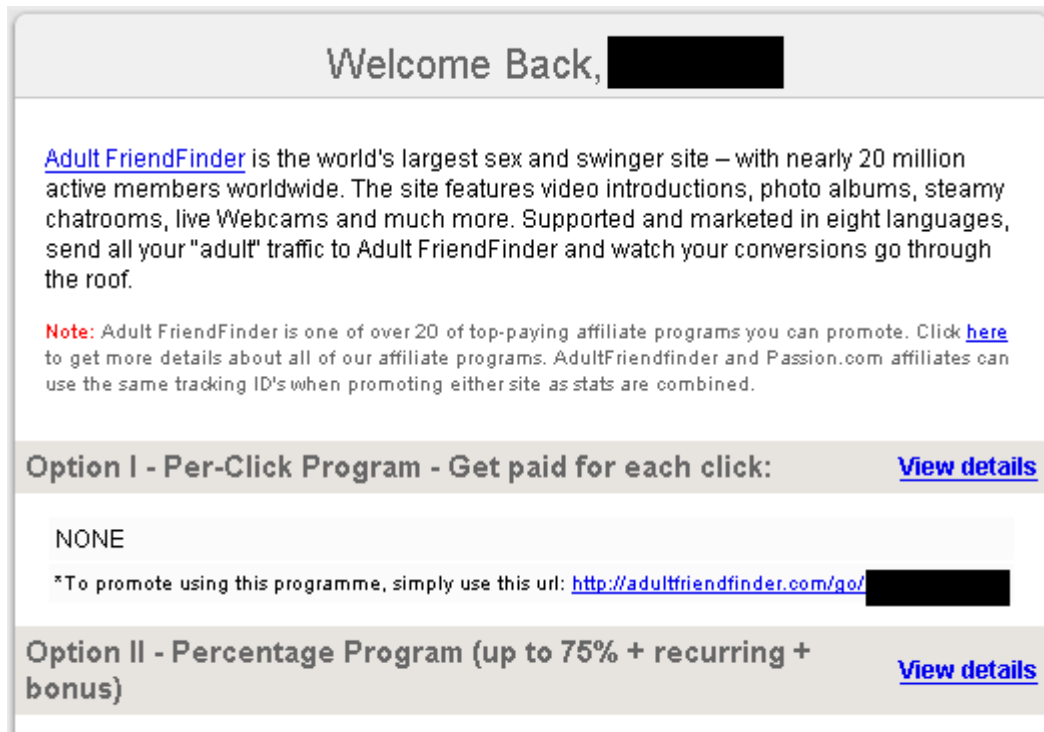

When you have already clicked “Affiliate Signup” you should be taken to the “Affiliate Signup” form. You will notice that you have to choose Preferred Program. I recommend you choosing option **1. Click-Thru (Up to \$1/unique IP/day)** This is the lead based I mentioned earlier. You will earn at least \$1 per free signup and some extra cents up to \$1 per unique visitor sent via your link depending on your visitors/signup-ratio.

You will also notice that you have to provide URL to your very own website. If you have one, just put your url out there. If you don't: you can use any free hosting account. Just Google for it and open new free hosting account and build any site. There are many free hosting companies.

Once you have signed up you should received your login id and password to the email address you have specified. Then go to the main affiliate page and login clicking "Affiliate Login" link from the site's menu.

You will be taken to that or similar page like the one below.

Look at Option 1. copy the url provided.

Example

*To promote using this programme, simply use this url: <http://adultfriendfinder.com/go/xxx>

Save the url in your text editor, you will need this later.

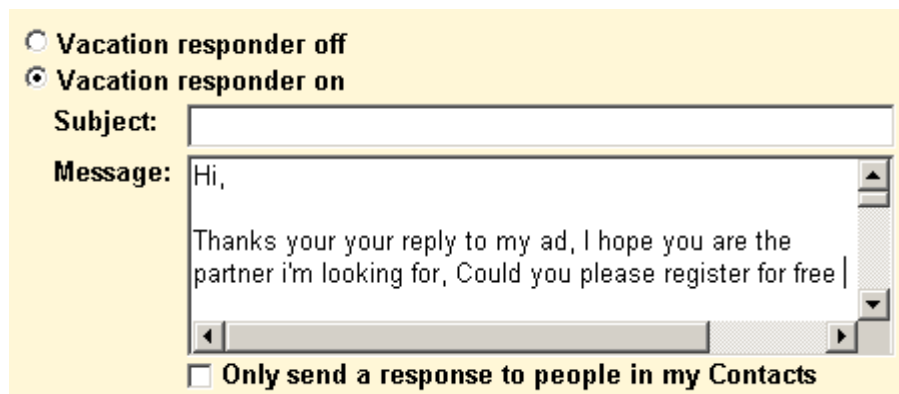

Next you have to signup for some new email address or even a few of them (recommended if you are willing to work as much as you can to achieve \$500+ days!).

I found <http://www.gmail.com> to be the best one.

1. Go to <http://www.gmail.com> and signup for a new email (let it be some girl name and catchy one like **wildpussy69@gmail.com** or **shygirl84@gmail.com** ,you know what I mean :)
2. Once you have signed up for your new email address/addresses go to settings (as highlighted in screenshot below)

3. Then at the settings page set up your autoresponder

4. You will have to leave subject place blank! (IMPORTANT– that way your automatically sent emails will have subject like “RE: -somebodys subject-“

5. In the message field you have to write something catchy, something that make your recipient confused and will lead him through your affiliate link to sign-up so you will make money.

Here is the one of the texts I used:

Hi, thanks for your reply to my ad, I hope you're the one I am looking for.
 Could you please register for free at <http://your-affiliatelink-here.com> (the one we copied earlier) once you have done that please send me your profile ID sweetie. It's important that you sign up so you will see there my other photos and full profile with cell number. I hope you're not 60 yrs old..... :-P Rebelgirl.

I think you get this idea. Be creative, try to persuade them. Use obvious texts. Promise to giving photos, chatting on msn after registration etc. Also remember to use different sites. For example if you're appearing as a Korean girl use link to KoreanFriendFinder, if you're british girl – use normal FriendFinder!

TIP: Use different auto responder texts in each one email you created.
 On the next page I am going to show you where to advertise for FREE.

Go to free classified ads website <http://www.gumtree.com>

Once you have chosen the city you want to post your first ad, click the “post an ad” button from the left menu.

Then you will be taken to the page where you have to choose category where your ad will appear.

Click “Friends / Partners / dating” and then “Dating”

Then you will be asked in which section would you like your advert to appear – choose “Girls seeking guys”.

You will be taken to “post an ad” form:

As a location it’s the best to put city’s name (London for example)

In posting title write something catchy like: “Sexy 18 years old girl from Asia looking for Fun in London

area” – just remember to be creative as much as you can to persuade people to see your ad.

In the posting description write your ad’s text,

here is the one I used once successfully:

Hi, My name is Agatha and I am looking for nice guys in London. If you have good personality and are between 18-35yrs please email me at shygirl84@gmail.com coz I am so lonely and need some fun with confident guy.

TIP: put your email address in ad text when advertising in London, because auto responder can’t answer to the emails sent via gumtree form!

In the email section put the your email address with auto responder on.

VERY IMPORTANT

Fill out the rest of the form with your name, age, etc. (phone number is not needed)

You may add some photos. Remember that it will be the best if the photo looks pretty normal while there is sexy girl on it. It’s good to add sometimes one, sometimes two. You can very easily get good photos on myspace.com.

Don’t try to post photos which looks to good to be true – your ad will get deleted.

Once everything is done click preview your-ad and then submit it.

(TIP: London ones need verification – they automatically send message with link you have to click on to start your ad – so remember to check your email inbox. As far as I know other cities don’t have such verification method)

If your ad was really good just sit back and enjoy money rolling in.

If you want more repeat the whole process. Working 6-8 hours a day given me almost \$800/day

Tips:

Remember to change IP number and use different email address and ad text when posting new ad in the same city on the same day.

Post as much ads as you can, this will make you more money – believe me.

If you don’t have dynamic IP use web proxies (anonymizers) You can find such ones here:

<http://www.proxyglory.info> or <http://www.proxy.org>

Promote different sites.

Be creative!

Work Hard! And success will come too.
Don't forget to giving your email address in ad's text!
When Your ad is deleted create new different one.
Other classified sites you can use to post is
<http://www.adpost.com>
<http://www.craigslist.org>
<http://www.mocca.com>
and <http://www.gumtree.com> as mentioned

And the best place is go and download [MIRC](#) join Galaxynet or Dalnet server, go to the popular sex channels and pretend to be a girl, and give out your emails in the private chat. Don't give it publicly, as the channel ops may ban you.

I have given you all the information you need to make this money online,
it is time to take action and do something,
If you wish to sit and wait, you will see opportunity pass you by.
And don't frown or envy when other people have success.

Thank you and share this with others. And may you have success in your program.
